SUMMARY

Software Engineering graduate with 6 months of industry experience at Esupport Technologies, specializing in Laravel, React, RestAPI, and TypeScript. Experienced in building real-world systems including CRM platforms, live streaming applications, and booking systems within Agile teams. Proficient in version control using Git and GitHub for collaborative development.

TECHNICAL SKILLS

Flutter	HTML	CSS & Tailwind CSS
PHP (Laravel)	Figma	Postman & Jmeter
React (JS & TS)	MySQL & RestAPI	Jira & Github

EXPERIENCE

Software Engineering Intern Oct 2025 - Apr 2026

Esupport Technologies

- Collaborated in an Agile team with developers and designers to deliver production-level applications.
- Contributed to a CRM system, improving data workflows and user interaction efficiency. Developed features for live cricket streaming platforms, including real-time scorecards and match updates.
- Developed full-stack features using Laravel, React, RestAPI, and TypeScript & Designed responsive UIs using Tailwind CSS.
- Used Git and GitHub for version control, including branching, pull requests, and team collaboration.
- Designed and implemented a booking system, improving user efficiency and reservation management.

PROJECTS

Developed an E Commerce Web Application Sep 2025 - Oct 2025

- Developed a full-stack sweet shop web app using React.js, Laravel, and MySQL with responsive tailwind CSS.
- Implemented CRUD operations, shopping cart, and dynamic product management via Axios API integration.
- Ensured smooth user experience and efficient state management using React Context API.
- Technologies used : React | Laravel | MySql | Tailwind CSS | API

Driver Drowsiness Detection Mobile App Jan 2025 – June 2025

- Engineered a Flutter-based mobile app to detect driver fatigue using OpenCV and Dlib, achieving 91% accuracy on mid-low-end devices. Implemented real-time alerts based on eye closure and yawning detection.
- Designed a low-distraction UI through user interviews and applied design thinking principles.
- Technologies used : Flutter | Python | OpenCV | Dlib
- Soft Skills: Time Management, Problem Solving, Adaptability, Critical Thinking
